ULSTER IN ARMS.

(Continued from First Page.)

King's minister we appeal to the King of Kings, the Lord Bishop of Derry today in a sermon preached to an immense congregation of Orangemen in the old Cathedral within the bastioned walls of the "Maiden City."

The sermon was a violent denunciation of Premier Asquith and the English Liberals and the waving of cross and sash in the face of the Irish Nationalists. The Protestant Episcopal prelate justified the "Ulster rebellion."

FEIVID ORATORY.

Speaking of individual and national responsibility he asked, "Did the congregation suppose that their duty to God, to themselves, to generations yet unborn would be discharged by tamely submitting to being sold like brutes in the marketplace by men who received in exchange seventy dishonest votes? They had seen one estate of the realm (the House of Lords) thrust out of the way by these selfsame men who had pledged their honor to replace it by a newly-constituted chamber. Now, in its absence the attempt was being made to enslave the Protestants of Ireland. They were to be handed over helpless to the tender mercies of their sworn foes who had openly declared they would take revenge in their day of triumph. Ulster would never submit to such degradation."

God would never permit his loyal children to be so sacrificed. He appealed to the spirit of the Boyne, of Aughrin, of Derry—from the treason of the King's Ministers to the King of Kings.

PEOPLE SOLEMNLY DEDICATED.

The Orange banners were raised before the sanctuary after the portly bishop descended from the pulpit and seated himself on the throne. Leading Unionists and peers occupied stalls with the officers of the cathedral. Similar scenes were enacted today in every Protestant and Presbyterian church in Ulster. The people were solemnly dedicated to the "rebellion of 1912."

ERECTING BARRICADES.

Tomorrow in Belfast the draft of the "Covenant" will be submitted to the Ulster Unionist Council. It will then be proclaimed throughout the country and signed at the great demonstration to be held on Saturday. The signing will actually take place in the council chamber of City Hall, after the mass meeting at which hundreds of thousands of Orangemen are expected to take part. The Lord Mayor wearing his gold chain of office and full regalia and the aldermen and councilors their cocked hats and cloaks. Barricades are being put up for the fighting which is expected to follow the intersection of West and North Belfast, the dividing frontier between the Catholic and Protestant quarters.

BALD PARK BURNED.

Fire Destroyed Association Plant at Kansas City Entailing a Hundred Thousand Dollar Loss.

KANSAS CITY, Sept. 22.—Association Park, the home of Kansas City's American Association baseball team, was destroyed by fire tonight together with a plant of the City Ice and Storage Company and two residences near the park. The loss was \$100,000. The ice company's loss was \$60,000 and George Tebeau, owner of the local association, lost \$20,000.

An \$8000 motor fire engine burned when the engine stopped and the firemen were unable to move it away. Two firemen were severely burned when they attempted to start the engine.

The fire started a few hours after Kansas City and St. Paul had played a double-header at the park, the closing games of the American Association season.

SUPERVISOR HURT.

Auto Driven by Vallejo Man Is Overturned and He Suffers a Fractured Skull.

VALLEJO (Cal.) Sept. 22.—Superintendent of the Vallejo State Hospital, who was seriously injured and several others were hurt in an automobile accident near St. Helena late today.

The fire attempted to squeeze his car between a horse-drawn vehicle and a clump of trees with the result that the occupants of the rig were thrown to the ground by the collision and the automobile overturned.

Fleming was caught under the car and his skull fractured.

Mrs. Dan Dreslin's shoulder was broken, her little daughter was badly hurt. They were in the Fleming car with Mr. Dreslin, who was not injured.

IS ON THE VERGE OF FINANCIAL CRISIS.

Country Is Bankrupt, Big Loan Is Exhausted, Government Stopped—All These Things Tend to Most Serious Apprehensions—Expenditures Will Be Reduced by Half.

(By Cable and A. P. to the Times.)

Sept. 22.—It is felt generally here that Cuba is approaching a crisis in its history as a republic. Serious questions occupy the minds of the people.

The present state of affairs is such that an early election for the assembly is inevitable. The government is in a financial straits, and is in danger of being overthrown.

The government is in a financial straits, and is in danger of being overthrown.

FINANCIAL CRISIS.

The press continues to be filled with pessimistic articles bawling the financial and political perils that befall the republic. Careful estimates show that the Gomez administration has spent during its two and a half years at least \$140,000,000. Reports declare that the only hope for Cuba lies in cutting down her expenses at least 50 per cent.

The present aspect of the political situation appears to justify reasonable expectations that Gen. Mario Menocal can carry the election, especially as he has just formed an alliance with the wing of the Liberal party under the leadership of Gen. Ernesto Abarca, Governor of Havana province.

Both, Conservatives and Liberals are making strong bids for the negro vote.

"Ich Dien"

—I Serve—

I serve the public through my many banking departments. I extend the hand of helpfulness to the struggling man and woman—to help them accumulate sound securities, to help them invest their money wisely. I help the workman to save some portion of his salary. I help the working woman—fathers, mothers, sons and daughters, heads of families. I help the business man, the professional man, the artisan.

As a guardian I protect and hold much in trust. I act as executor, administrator and trustee. I serve economically and efficiently through many reliable trust officers—skilled attorneys and efficient business men.

I guard and protect valuables. I keep safe deeds, insurance policies, stocks, bonds, jewelry and other valuables and protect them against flood, fire and burglars.

MISSION WORK AMONG ESKIMOS

Catholic Priests to Labor in Northland.

Subjects Make Progress in Civilized Arts.

Explorer Has a Plan to Gather Folklore.

(By Direct Wire to the Times.)

TACOMA (Wash.) Sept. 22.—[Exclusive Dispatch.] Via Mackenzie River and Dawson comes news that Father Rover, of the Catholic Church, will become a missionary to the Eskimos of the Northwest.

He will be accompanied by Father Leraux, heretofore a missionary among Labrador Eskimos.

Father Rover spent the winter at Dismal Lake near the Copper River among a portion of the tribes of whom Stefansson told him. He returned to Mackenzie this summer for supplies and to communicate with the Eskimos.

He found them believers in one wife for each man.

To aid the work of the Church of England missionaries, Stefansson wrote letters regarding the Eskimos to Rev. Whitaker, Anglican missionary at Ft. McPherson, now visiting Dawson. Stefansson says that the Eskimos are a very primitive people.

Stefansson taught the intelligent natives Kleinschmidt's alphabet in less than half a day. With this spelling system, he says the Mackenzie Eskimos could write in their own dialect a letter which the Greenlanders could read and the latter's answer could be understood in Mackenzie's dialect or on Bering Sea.

On returning to Victoria Island, Stefansson intends collecting Copper Eskimo folklore for the light it throws on their past history.

MANY MILITARY CHANGES.

Board to Select Officers of General Staff Has Completed Its Work and Announcements Will Be Made Later.

(By A. P. Night Wire to the Times.)

WASHINGTON, Sept. 22.—Announcement was made at the War Department yesterday of the following changes in the General Staff Corps of the army:

Maj. W. D. Connor of the Engineer Corps relieved Maj. Paul Straub of the Medical Corps; Maj. R. A. Brown, Fourteenth Cavalry, relieved Lieut. Col. H. T. Allen, whose recent promotion made necessary the change.

The board to select officers of the General Staff Corps has completed its work and many other changes will be announced later.

LAST CHANCE FOR CIVILIANS.

Examinations of Candidates for Army Commissions to Be Held at All Army Posts Next January.

(By A. P. Night Wire to the Times.)

WASHINGTON, Sept. 22.—Probably the last chance during the present administration for civilians to secure commissions in the United States army is offered in an order issued yesterday from the War Department for a series of examinations for candidates for these places, at all army posts beginning January 15.

STEAMSHIP ALMOST DONE.

Second of Fleet of Eight Vessels for San Francisco-Honolulu Service Nears Completion.

(By Federal Wireless Line to the Times.)

BALTIMORE, Sept. 22.—[Special Dispatch.] The American and Hawaiian steamship Dakotan, second of the new fleet of eight steamships being built for the San Francisco-Honolulu service, is close to completion on the slips of the Maryland Steel Company. She will be ready for her trial trip about two months hence.

GIBBONS ON LABOR.

Cardinal Says That Brain and Brawn, Mind and Physical Forces Should Be One.

(By A. P. Night Wire to the Times.)

KANSAS CITY, Sept. 22.—[Exclusive Dispatch.] Joseph B. Keating, in charge of the bureau of organization for the Chicago headquarters, at the close of his second week here, said today before leaving on a two day trip to Indianapolis:

BUREAU CHIEF IS CONFIDENT.

News at Headquarters Is Favorable to Taft.

Polls Show the President Is Making Gains.

Meeting Is Scheduled for Detroit Today.

(By Direct Wire to the Times.)

CHICAGO (Ill.) Sept. 22.—[Exclusive Dispatch.] Joseph B. Keating, in charge of the bureau of organization for the Chicago headquarters, at the close of his second week here, said today before leaving on a two day trip to Indianapolis:

"The beginning of the sixth week before election shows marked progress in the Middle West.

"Last Monday a conference of Indiana leaders was held at headquarters, and the situation in that State gone over carefully. Republicans in charge there report that every county in the State is thoroughly organized and work is being vigorously pushed. Polls taken in various districts in the State show a marked increase in Taft sentiment. The increase in factory and labor centers is due to the fact that every man who wants work can get a job at the highest wages ever paid in this country. This fact is making the laboring man stop and think. The Indiana conference will be followed by similar ones with the Republicans of other States in the near future."

MEETING IN DETROIT.

"The Michigan Republicans are up and doing. Reliable reports indicate that Taft will easily carry the State. A meeting of the State Committee is called for tomorrow and the situation there will be thoroughly canvassed.

"A number of prominent Republicans of Wisconsin were at headquarters Friday, and a distinct Taft organization is to be made in that State. Every county is to be thoroughly organized and a campaign speaker sent to every part of the State. Little sentiment is found in Wisconsin for Roosevelt, and the contest without doubt has narrowed down between Taft and Wilson."

NORTH STAR STATE.

"In Minnesota, the renomination of Senator Nelson and Gov. Eberhart, both loyal Republicans and Taft supporters, have encouraged the Republicans of that State to believe it can be carried by Taft in November.

"Minnesota has never yet turned her back on the Republican party and will not now. The Republican party has made her what she is."

The withdrawal of Roosevelt electors in Kansas and the placing of the Taft electors on the Republican ticket where they rightfully belong, has put courage into the Republicans of that State and a vigorous fight will be made to carry it.

CHANGE OF SENTIMENT.

"Our reports from Colorado, Oregon, Washington and other far western States indicate a remarkable change of sentiment toward Taft. One Republican from Washington writes me:

"Conditions out here are getting better. We are so busy this year making money that if we have time to go to the polls we will elect Taft."

GUILITY OF MANSLAUGHTER.

Jury Brings in Verdict in Willard Tanner Case at Portland, After Five Hours' Deliberation.

(By A. P. Night Wire to the Times.)

PORTLAND (Or.) Sept. 22.—After five hours' deliberation the jury in the case of Willard Tanner, charged with the murder of Ray Wallace, a restaurant waiter, last night brought in a verdict of manslaughter.

Hazel Irwin, in whose room the murder occurred, was convicted of manslaughter in the same connection two weeks ago.

THE BOOTERY

small towns in all the States effected a rebelling received daily.

In the State of Mexico increased activity has been displayed. Gen. Ove de Leo, who appears to be the dominating character in that region, established headquarters at San Simon el Alto last week and threatened to sack Toluca in revenge for the defeat administered recently by government troops.

DIDAPP REPRESENTED ABOUT EVERY FACTION.

(By A. P. Night Wire to the Times.)

WASHINGTON, Sept. 22.—Juan Pedro Didapp, arrested at El Paso today on charges of violating the neutrality laws, left Washington hurriedly last week. He had been here for some time, claiming first to represent Orozco, then the Vasquez Gomez faction and finally Gen. Zapata. Gomez had repudiated him. Under the Dias administration Didapp was Consul General at Constantinople and later Consul at Norfolk, Va.

CHIEF'S DUTY DONE.

District Attorney and Police Commission to Take Up Cases of Two Accused Patrolmen.

The Chief will place before the Police Commission Wednesday the case concerning the arrest and suspension Saturday night of Patrolman T. S. Miller, No. 231 West Fifty-second place, under suspicion of taking a bribe from M. Inouye, proprietor of the Tachyo Cafe, on North San Pedro street.

CRIMINAL PROCEEDINGS.

Criminal proceedings are to be instituted against Patrolman J. H. Kennedy, No. 2229 Wall street, former member of the Metropolitan Squad, who was placed under arrest with Miller in the basement of the cafe. A felony complaint will be asked of the District Attorney if in his judgment the evidence will warrant court proceedings.

THE ARREST OF THE PATROLMAN.

The arrest of the patrolman was the chief topic of conversation in the department yesterday. The rumor started, whence no one knew, that the action in the Kennedy and Miller cases was but the beginning of a sweeping investigation of the police force but this was stoutly denied yesterday by the Chief and Capt. Murray. The latter said:

"The force is the cleanest in the United States. There is not going to be any investigation, for there is nothing to investigate. It is a pity that because one or two men should occasionally fall or be suspected of crime that the story should immediately be started that the entire department is bad and that a sweeping investigation is to be made."

Miller said yesterday that he had nothing to fear adding:

"I have not done anything. I court the fullest investigation. All I ask is an opportunity to explain everything to the commissioners. I am a victim of unfortunate circumstances. Don't worry; I'll all come out right in the end with a vindication of myself. I bear no one any ill-feeling. The Chief did right; I would have done the same thing myself under similar circumstances."

Both patrolmen have employed Attorney Frank Dominguez to defend them.

WOUND NEARLY FATAL.

Woman Learns to Shoot Revolver and Accidentally Pulls Trigger When Muzzle Presses Her Breast.

Mrs. Joseph Seawald, No. 663 East Fourth street, tried target-shooting at the beach yesterday and was so enthused with her success that when she returned to her home she picked up the family weapon, a stunted revolver, and asked her husband if he thought she could shoot as well with it as with the one used earlier in the day. Her husband, Alex Seawald, a mechanic in the Southern Pacific shops, guessed she could.

Mrs. Seawald aimed at various imaginary deer leaping about the room and then turned the revolver on herself. She began talking about something else and pulled the trigger. The bullet circled around through the upper portion of her chest.

She faintly when the blood sprang over her dress. Mrs. Seawald was taken to the Crocker-street Hospital, where the bullet was removed by Dr. Gage after a particularly dangerous operation that necessitated exposing the lungs.

She will recover, say the surgeons.

Enrollment Not Necessary.

San Jacinto

The Land of Health and Wealth

York can probably be duplicated in other cities of the United States, however respectable is a thief. And all thieves are promptly punished. The miserable eighth commandment has been shamefully disobeyed.

[illegible]

In order to be in style with the two political parties, it is reported that the crack in the historic Liberty Bell is extending and threatening to split the relic.

August 30: Kansas coal miners' strike
ended with nothing gained.
1894.
January 15: The Secretary of the

and so it went on with three million men out of employment in the United States by reason of the Democratic low tariff policy (virtually free trade, in this country of great natural resources) that was killing us on July 1, 1896. The gigantic men of William McKinley restored the policy of a protective high tariff under which this country had previously (and since) so greatly prospered. In fact, the revival of that confidence which begets industry, work and wages, began with Martyr McKinley's election to the Presidency in November, 1896.

"Do we want the miseries of '93 to '96 again? Do we want three million men out of employment for four years again? Do we want banks to be bursting right and left again? Do we want millions of men, women and children to go hungry again? Do we want to see our newspapers full of legal notices of sale and mortgage of thousands upon thousands of workers' homes again? Do we want to see thousands of storekeepers forced into bankruptcy again? Do we want to see the three million unemployed men walking the streets looking for work which does not exist and bread which can not be made?"

"No," say the people of the United States. Decidedly no! And the general confidence that the people will vote "no" helps make business good all over the country today.

and Oregon, to the electoral vote probably Democratic. That will mean votes for Wilson, 74 less than the votes necessary to elect.

The States which, under normal conditions, are safely Republican, are California, Illinois, Iowa, Kansas, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Utah, Vermont, Washington, West Virginia and Wisconsin will vote in the Electoral College, or more than a majority of that body.

The States-which, in 1910, were as bad as to be classed as doubtful, with a leaning toward Republicanism, are Connecticut, Delaware, Idaho, Maryland, Missouri, Montana, Nebraska, Nevada, New Mexico and North Dakota, cast electoral votes, or, with the 203 votes of the safe Republican States, 15 less than the 265 necessary to elect.

The States classed as doubtful in 1910, Democratic tendency are Indiana, Massachusetts and Montana, with 13 electoral votes, which, if added to the 203 votes of the safe Republican States, would give Wilson 233 or 31 less than the 265 necessary to elect. This would make New York, with 31 votes, a determining factor in the contest. It illustrates the old saying that "New York so goes the Union."

Nuremberg, with its steep streets, its ancient walls, its old mills along the swift Little Pegnitz; its red-roofed houses with their pointed gables and high-peaked roofs; the market place, with the white umbrellas clustered like a domestic forest around the bronze 'Gansemann'—the Little Goose man; the women forever and forever carrying their long gray stocks; the venerable old church braced up and sustained in its old age by the little beer house where you get the good wurtz and sauerkraut, etc., etc., and more etc. If you can hold any more; Nuremberg, with its memories of the patriot Palm, of Hobbins, Peter Vlecher, and the old Albrecht Dürer, of all the cities of Europe, delightful old Nuremberg is the one where you let down your nerves and get acquainted with your friends of the fifteenth century.

Peter J. Burdette

Canada Imports Eggs.
[Consular Reports.] Canada, formerly one of the most important egg-exporting countries in the world, has now become an importer, the home production being entirely inadequate to supply the consumption. In spite of the high prices secured for poultry and the promise of big profits, its production and finishing is largely neglected by the Canadian farmer.

The State. But the

Other interpretations laid down by Mr. Camp were that, the capper cannot snap the ball to himself and run with it, that if a kicked ball hits a player on the line, then he is out. A player who bounds back to a free ball and that a ball downed against a goal post is not a touchdown.

Dick Bavless.

He put the ball over the fence in the morning, and scored three of Vernon four runs.
